

Minor Movement  
against the Major Hegel  
– Wittgenstein – his  
Opposition to Hegel –  
the most Fundamental  
Anti-Philosopher in the  
Great Meaning of Life,  
Existentialism

By Martin Heidegger  
(1921)

I. Wittgenstein

The world is all that is the case – as if the philosophy he is about is the case – but in line with music – something like a person living music.

## II. Music and Life – Simple things about Wittgenstein -a Attempt at a Biography

music against  
mathematics – just that  
he meant therefore.  
Ludwig Wittgenstein.

Part II (1927)

Methodical Writing on  
Wittgenstein –

I. To be in a ladder  
then of one abstract  
level above the text  
of Tractatus

To be abstract about the case, is to make him a person, and to be abstract above the notation is to mean musical symphony to the person.

## II. Hegel in this Meaning of Philosophy

Hegel is a major current of dialectics and systems of philosophy –

Wittgenstein is a minor  
current on just musical  
life.
